SPRECH BY RUFUS F. ANDREWS. The Union Republican General Committee The Union Republican General Committee held a regular meeting at the Republican Headquarters, Fifth-ave, and Twenty-second-st., last evening. In the absence of Horace Greelev, Sinclair Tousey occupied the chair. After the usual routine business had been disposed of, the resignation of Samuel J.Campbell, from the XXth District, as a member of the Committee, was con-AXth District, as a member of the Committee, was considered and accepted, and John Hegeman admitted to membership in his place. so standarous, and witness the bemocratic authorities of this city,
so standarous, and witness that the only distinct
connection between Tanmany Hall and this Committee
which ever existed was when that Democratic organization from Twenty-third-st., under Mr. Murphy's flag, was
in the other room, and that connection ceased to exist
when Murphy and his party went out of that door. [Applause.] And if the tax-payers and citizens of New-York
structed in making these fellows replace the property
they have plundered from the City Treasury, they will
find the names of Murphy, Sweeny, Tweed, Connolly,
and the whole of them combined.

Rufus F. Andrews—I don't desire to take up the time
of this Committees with any extended remarks upon this
resolution, but you will be patient with me inasmuch as
this is the first time I have opened my head in this Committees since it was organized, the list of January, which
is rather unusual when you look back to my past record
in connection with this Committee. (Laughter, I think all
that has been said pro and con in reference to the charges
made against members of this Committee as being conmication, requires a word of explanation regarding myself, inasmuch as I find in the charges which have been
published in one of the duity papers, that for the want of
an office to assign me they have seen fit to put me in the

think that all know the winter thas a Tammany Hall

stances, and that is what hardly any lawyer in the same number of years can say. The records of the courts will prove what I assert. In
one of those cases I got the parties together, and the
case was settled between them in one week. The other
was of a broken-down unining company, the assets of
which did not amount to \$6,000 all toid. So much for being a Tammany Hall receiver.

Now, as to being a Tammany Hall referee. In my is
years' experience I have had some appointments as refcroe, as do aimost all lawyers, and when I saw this
charge made I looked at my books to see how much I had
received as referee's fees, and I found that it footed up
botween \$1,500 and \$1,600 in 16 years. This is what I have
been put down a Tammany Hall receiver and referee for.
Well, really, if they would give me the assets of Tammany Hall perhaps I would be willing to accept the situasion (laughter), but insamuch as I have not, it is perhaps propor that I should make this statement.

Now it is equally fallacious and equally unfair to
charge that these men hold public offices in this city,
being Tammany men or guided by Tammany influence.
What is the fact Commissions were first created and
established by the Tammany party, and no man thought
it improper to hold a position under a commission the

I speak of these thines because the charges are being Brought before the State Convention to make out by hook sor by crock somewhat you and I hold some kind of a position under Tammany. My friend Conover has alluded to the fact that Thomas Murphy is largely engaged in real estate speculation with Tweed, Connolly, Sweeny & Co. It is a fact. I asserted it here hast Fall, when we were having this quarrel with Mr. Murphy and his friends, and he never denied it. Murphy was inside of the Tammany Ring, and he knew when and where quelled in the others together, and saked to join them is made on the records, and has never heen changed. Let the gentlemen, I think this pretty effectually disposes of our friends who have undertaken this unifair means of trying to influence the State Convention: because they know that on the question of regularity they are entirely out of place. They know that, on the question which it is proper for that State Convention to consider, they have no standing in court whatever, and they hope by getting some of the State Convention t

Mr. Andrews—I have no knowledge there. I am not secret.

John Fitch—The time, in the providence of God, has come when the Reput han party is to carry this State Cargely on the State Lichet and both branches of the Legislature, and shake up the City of New-York and frighten Tammany, or else we are going to be buried so deep that the resurrection will scarcely find us. If the mighty party in this State, which has been buried of the last three years through the machinations of Tammany Hall and the Custon-House elique, is to be run by those nen we are beat users in State. Lawrence County, and almost every other Republican county. On the contrary, if we can throw those scallions overboard we will garry the State by unfold thousands the coming election, and also both branches of the Legislature. Only yesterday the State of California, on a local issue, went kepublican 4,000 or 5,000. [Applause.] I wish most cordially to indorse the action of the Committee in calling the Lounty Convention and all the other conventions. We must "ring up" all the opposition to Tammany upon the respective nominations in the Custom-House gang as belonging to the Republican party at all. [Appliause.] I consider it as the after wheel drews-I have no knowledge there. I am not

to Tammany Hall, and I hope the Republican party will have nothing to do with that organization. You are aware that they gave the Assembly to Mr. Tweed last Fall. Brethers Gridley, Twombly, and Costs would all have been elected but for those men. I don't believe a man can put his hand in a tar barrel and bring it out clean. The man that puts his hand in Tammany Hall receives a stain which will last till he dies, though if any man can wash it out, it is Brother Andrews.

bring it out can be said which will last till he dies, though if any man can wash is out, it is Brother Andrews.

Four years ago we had the same trouble with those men that we are having now. When Charlie Spencer he fought with us faithfully, but in an evil hour he fell, and now where is he! We fought that matter in the State Convention, and we made our ticket and elected our Governor in spite of those men voting for John T. Hoffman, and all the influence they held in the City of New-York was about 900 votes, as the record of votes between Fenton and Gen. Shaler shows. My impression is that it would be better for the Republican party if that entire gang would just march, body and soul, directly over to Tammany Hall, fight under their banners, and act as Democrates. I believe it would help us in the city. If they are kicked out of the State Convention we will carry the State by unfold thousands. Now. I hope none of the brethren will be anxious to put this or that man upon any of the county tickets, or upon the Senste or Assembly ticket. I think the universal feeling should be that the Republicans should have the nomination of Senstor in the Discricts composed of the Eighth, Ninth, Fifteenth, and Sixteenth Wards, and give the rest of the District to the most honest Democrat they can find who is willing to take the nomination. I would claim the nomination in Gridley's, Twombly's, and Costa's districts, and perhaps two others, and as to the rest join with the open near to found. I want to claim five Assembly Districts, three certainly, which we have a right to, and perhaps five. It is not too much to ask of the opponents of Tammany one Senator out of five, and, as Mr. Greeley said the other night, a representation on the County ticket.

Charles T. Poihamus stated that in the past three weeks, during his absence from the city, The Times on the originally held the position as organized by the Republican party, but was turned out 18 months are by Tammany in the nomination to the mistake, but The Charles has not had th

Another candidate for the same office is Dr. Parker, who has lately moved in the district and placed himself before the public in organizing the Fifteenth Ward Shandley

TAMMANY TROUBLES IN THE SIXTH WARD. Thomas J. Creamer is pressing his claims for the VIth Senatorial District, and says he stands unopposed for reflection. This is not true. Martin Nacht-mann is pressing his claims upon Tammany Hall, as he has ascertained that the Germans are in large majority has ascertained that the Germans are in large majority in the VIth District. The Germans, united with the Americans and the respectable portion of the Irish element, favor the nomination of Magnus Gross. When Mr. Creamer salled for Europe he was promised the nomination by the Tammany Hall leaders, but on his return he finds that the opposition against Tammany Hall is growing in strength, and that the revolt of the Germans leaves his election and nomination in doubt. He does not fear Mr. Nachtmann, for, if obliged to give way to a German, Nachtmann is Creamer's preference. The friends of Magnus Gross declare they will run him, whether nominated or not.

Synopsis for the past twenty-four hours.
The barometer has fallen since Wednesday
night at the Pacific and Rocky Mountain stations. The
high pressure on Lake Michigan has moved eastward,
and the low barometer in Georgia has risen some what and
moved but little to the north-east and east. The pressure
is now rapidly rising throughout the Middle and Eastern
states. The temperature has fallen decidedly in this
latter region, and less so very generally east of the
Mississippi. Rain and cloud are confined to the immediate Carolina coast. Elsewhere clear weather is reported.
Increasing northerly winds prevail from Wisconsin to

Probabilities.

Clear weather is probable for Friday very generally east of the Mississippi, with falling temperature from Carolina to Lake Huron and eastward. The disturbance on the South Atlantic coast will probably diminish in intensity. An area of low barometer, with southerly winds and threatening weather, will probably develop from Iowa to Lake Huron.

A BRUTAL MURDER IN JONES'S WOOD. After the Caledonian games at Jones's Wood had ceased late yesterday afternoon, the grounds were filled with pleasure-seekers designing to remain until late in the evening. About 8 p. m. two unknown young men appreached the cake-stand and, after asking about the prices in an insulting manner, finally ate some pie and refused to pay for it. The girls in charge asked the men for their money, and were addressed in obscene language. A number of young men, consisting of Frank Dorian of the Seventh Ward, Frank Raymond of Eighty-Dorian of the Seventh Ward, Frank Raymond of Eighty-third-st, and Second-ave., and William Robb of No. 12 Carmine-st., observing the conduct of the roughs, remonstrated with them. One of the unknown men, upon hearing Dorian speak, suddenly stabbed him in the right breast and fied. The place was very dark, and Dorian, aithough conscious that he had been struck, did not see the knife, and did not know that he had been stabbed until several minutes afterward. The wounded man then told his friends that he felt weak, and was oarried into the light, where the blood was seen flowing over his vest. The Nineteenth Precinet Police were summoned, and informed of the stabbing affray, but failed in their efforts to arrest the assassin. The police placed Dorian in an ambulance, but on his way to the Station-House the man died.

GEN. BUTLER'S CHANCES—COST OF INTERNAL REVENUE COLLECTIONS—KU-KLUK TRIALS IN RALEIGH. [BY TELEGRAPH TO THE TRIBUNE.]

WASHINGTON, Thursday, Sept. 7, 1871.
Letters received here from well-informed source in Massachusetts state that Gen. Butler stands no possible chance for the gubernatorial nomination from the Republicans, and the opinion is expressed that if his name is presented to the Convention, of which there seems to be now some doubt, that he will receive less votes than any name which will be presented. It is also positively asserted that he will not accept, in any event, a nomination from any but the straight-out Re publicans.

enue system in New-York, the entire cost of assessing and collecting the revenue for the present fiscal year will exceed 3 per centum by only a fraction. The estimated collections in this State for the year are \$21,108,670. The September term of the United States Court for the North Carolina Circuit will begin in Raleigh on Monday next, and will be one of the most impartant, it is thought, that has been held in the South, as action will be taken regarding many of the Ku-Klux outrages in that State. Over 400 cases are pending. Judge Bond left here yes-

There seems much uncertainty regarding the appoint ment of a Counselor to represent the United States at the English-American Convention soon to assemble in Geneva. It is stated that the position has been tendered to several prominent lawyers, some of whom held the offer under consideration for some time, but afterward declined it. The State Department declines to furnish any information on the subject.

THE CIVIL SERVICE COMMISSION. THEIR POWERS DEFINED BY THE ATTORNEY-

WASHINGTON, Sept. 7 .- The following has

WASHINGTON, Sept. 7.—Ine following has just been made public by the Attorney-General:

DEPARTMENT OF JUSTICE, WASHINGTON, Aug. 31, 1871.

The PRESIDENT—Sir: You have called for my opinion upon certain questions presented by the body known as the Civil Service Commission. That Commission has been appointed under the 9th section of the act of Congress, passed March 3, 1871, making appropriations for sundry civil expenses of the Government for year ending June 30, 1872, and for other purposes, which is as follows:

ows: That the President of the United States be, and he is hereby, author

resolution:

Ecolecd. That we recommend to the President that all admissions to

resolution:

\*\*Disolved.\*\* That we recommend to the President that all adiasions to the evil ervice of the United States, with such exceptions as may be specified, shall be determined by compellitive examination, open to all applicants who shall have satisfied each preliminary examination in regard to health, see, character, and such other qualifications, excepting political and religious opinious, as may be required.

The objection was made that the designation of a single person for appointment by a board not established by the constitutional power, would virtually vest the appointment in a body unknown to the Constitution. In the cases particularly propounded by the Commissioner, if the President, authorized by an act of Congress, should prescribe that the courts and heads of departments should aiways appoint the person in named by a civil service board, that board would virtuily be the appointing power, and that act of Congress would be the foundation of its authority. That Congress cannot give that authority I think is manifest. It has been suggested that the appointments now vested in the courts and in the heads of departments could be transferred by Congress toghts. The third congress is the president, and that he could appoint, according to the result of a competitive test, testified to by an examining board. To this mode of selection, if discretionary with the President, there is no constitutional objection, and the same mode under a similar condition would be used by the various appointing powers under the present abide by it if satisfied that the appointing power resorts to this test as a way of finding out the littest person for the vacant office, and is not bound to abide by it if satisfied that the appointing power, but cannot be made legality conclusive upon that power, but cannot be made legality conclusive upon that power, but cannot be made legality conclusive upon that power, but cannot be made legality executes of the appointing for the order of the appointing tower.

but cannot be made legally conclusive upon that power, against its own judgment and will.

The other question proposed by the Commissioners is this:

May the President, under the act by which this board is organized, regulate the exercise of the appointing power now vested in the heads of departments, or in the courts of law, so as to restrict appointments to a class of persons whose qualifications or fitness shall have been determined by an examination instituted independent of the appointing power?

My opinion is that he may. Though the appointing power alone can designate an individual for an office, either Congress, by direct legislation, or the President, by authority derived from Congress, can prescribe the qualifications, and require that the designation shall be made out of a class of persons ascertained by proper tests to have those qualifications, and it is not necessary that the judges in the tests should be chosen by the appointing power.

The act under which the present Civil Service Commission has been organized gives the President authority to prescribe such rules and regulations for the admission of persons into the civil service of the United States as will best promote the efficiency thereof; and this very ample authority will certainly embrace the right to require that the persons admitted into the service shall have been found qualified by competent examiners. It has been argued that a right in Congress to limit in the least the field of selection implies a right to carry on the contracting process to the designation of a particular individual; but I do not think this a fair conclusion. Congress could require that officers shall be of American citizenship, or of a certain age; that judges should be of the legal profession; and still leave room to the appointing power for the exercise of his own judgment and will; and I am not prepared to affirm that tog further and require that the selection shall be made from persons found by an Examining Board to be qualified in such particular as diligenc

LEGAL CONTESTS IN UTAH.

SALT LAKE, Sept. 7 .- The case of United States Marshal Patrick against Warden Rockwood and City Marshal McAllister, in which the laster are charged with resisting the U. S. Marshal in the performance of his duty, by refusing to deliver up to him the convict Kilfogie, is still pending before Judge Hawley, and excites much feeling among the Mormons and Gentlies alike. Marshal Patrick's action was based on the Governor's order, together with a letter to Patrick from the Attorney-General of the United States. Rockwood claims that there is no authority requiring him to deliver Kilfogle up to the U. S. Marshal except it be by a process of the Court. The question is, "Who has legal authority over Territorial prisoners!" Ex-Congressman Fitch spoke yesterday for the defense, and some of his remarks were very offensive to the Gentlies. THE BOWLSBY TRAGEDY.

The announcement lately made that Mrs Bowlsby, mother of the unfortunate Alice A. Bowlsby, had claimed to have in her possession a letter written by Mr. Conklin a few days before he committed suicide, and which it was said was in substance a declaration of his sorrow for having betrayed Miss Bowlsby, is denied by nembers of the Bowlsby family. Mrs. Bowlsby declares that she has received no such letter. The statement which was current in Paterson was that Mr. Conklin had written this letter to Alice Bowlsby, and that it was reate girl deserted her friends. . When it was known that she was dead, according to the story, the letter was opened, and found to contain a contrite statement of his

BRUTAL TREATMENT OF A CHILD AT A CHAR-TTABLE HOME.

The Susquehanna Valley Home, an institution for orphan children at Binghamton, N. Y., has been brought into questionable repute. On Tuesday last, Elijah Castle, a citizen of Binghamton, discovered a boy about 9 years old on Oak-st., walking slowly along, his motion being impeded by a heavy piece of wood, which was chained to his neck. Inquiry elicited from the boy that his name was Frederick Bowman, and that he was a runaway from the "Home," where he had been carrying the clos about in the manner described for 4 weeks. The wood was oak, weighing 16 pounds, and was chained to his neck. The boy was taken to the City Jail, where the rivets were filed away and his neck released. The President of the Board of Management at once called a special meeting of the body, and the following was adopted:

Received. That the Receive Committee is hereby instructed to take immediate measures for a thorough investigation of the case of Frederick Bowman, and to take such action as they shall deem advisable for the interests of the Institution. They are also directed to examine the method of discipline exercised by the Superintendent, and to report to this Board at an early day. The Superintendent of the Home is the Rev. Mr. Van
